## ABOUT US

**This season our team has curated a new collection, which is an ode to art, and its splendid creators.**

**The influence that art has on a subconscious mind is colossal. It preponderates our most indispensable tool- The brain. If we contemplate, we perpetually surround our selves by art and its shades. Every corner of our house is the consequence of someone's artistic expression.**

**Our collection - RUSTLAM , is inspired by some of the most exquisite artistic creations from all around the globe. We seek inspiration from art, which aroused a revolution.**

**Our artisans have inculcated the beauty of these aesthetic strokes in each of our designs. We help you fabricate a blissful aura in your house, engulfed in shadows of art. With our creations, you will experience extremes of ecstasy.**

**Size: 2400mm X 600mm  
Thickness: 1.6 mm**
